# Educational pioneer's 150-year legacy set in stone

A LIFE-size sculpture of Nano Nagle, the foundational leader of the Presentation Sisters, has been unveiled and blessed at a ceremony held recently at St Mary's College.

The 1.5-metre installation of the Irish-born woman, famously known as 'The Lady with the Lantern', was commissioned by the College to commemorate the school's 150th anniversary in 2018.

It is the work of Tasmanian sculptor Ben Tolhurst, who carved the 2.2-tonne figure using dolerite sourced from Murrumbidgee in Tasmania's south-east.

St Mary's College principal Helen Spencer said the sculpture was a special tribute to the school's establishment in 1868 by the Presentation Sisters, the Catholic order founded by Nano.

"The St Mary's College story can be traced back to 6 January 1868 when nine members of the Presentation Order formally took possession of their convent in Harrington Street, Hobart," she said.

"On 3 February 1868, the little school of Mount St Mary's, as we were then known, received its first pupils, making it the first Presentation school in Australia."

Born in 1718, Nano was recognised for her courageous work in secretly operating schools in Cork, Ireland for deprived Catholic children for whom education was illegal at the time.

Ms Spencer said although the sisters founded the College a century-and-a-half-ago, Nano's spirit and tradition continued to inspire St Mary's College.

"Nano is regarded as one of the greatest pioneers of Catholic education in Ireland, where she is well known

and widely acclaimed," she said.

"Nano's heart was always centred on those with less and her work did not end with her efforts in education."

"It continued in her visits to the disadvantaged families in their homes at night via the light of her lantern in the dangerous back streets of Cork."

A series of leadlight windows installed in the school's chapel were also blessed as part of a number of initiatives to mark the sesquicentenary of

St Mary's College in 2018.

Ms Spencer said she was looking forward to welcoming the many people with links to the College's rich history to the celebrations.

Anniversary events commenced earlier in February with a staff reunion attended by current and previous staff members of the College.

Celebrations will continue on Saturday 17 March with an Irish-themed community 'Fun Day' featuring a program of old-fashioned games, colonial dress-ups, Irish

music and dancing and a giant birthday cake.

A College mass and anniversary gala dinner will be held on Saturday 12 May at the Hotel Grand Chancellor.

"The gala weekend of 12 May is a wonderful opportunity for St Mary's alumni to participate in tours of the College and hold their own reunion events," Ms Spencer said.

Details of upcoming anniversary events can be found on the St Mary's College website at [www.smc.tas.edu.au/150th-anniversary](http://www.smc.tas.edu.au/150th-anniversary).

## Special connection in student leadership

GUILFORD Young College – Tasmania's only senior secondary Catholic coeducational college – has a special connection in its student leadership team on the Hobart Campus in 2018.

The Hobart Campus is welcoming a set of twins to its leadership

roles.

Isaac King is house captain of Guzman House, one of three houses on the campus, and Lachlan King is a student leader in Bosco House.

The students live in Acton Park. Both students are also

fine rowers and are currently representing GYC in the current rowing season.

lem-solve, build confidence and learn how to navigate group dynamics," he said.

"The drama course will run for one semester (terms one and two) where the group will build skills.

"In terms three and four, the focus will shift to apply these skills in practice."

"Co-curricular drama will run for one-hour each week on Wednesdays after school in Dominic College's historic Little Theatre."

Dominic College principal Beth Gilligan said that both students and parents had expressed a desire to have an extension and enrichment opportunity for younger students who enjoyed drama and had a flair for it.

"Numbers will be deliberately kept small to intensify the experience," she said.

The program will be conducted by Samantha Healey, one of the College's experienced drama specialists who has worked locally and internationally.

A NEW drama program is set to challenge young primary school performers at Dominic College.

Dominic College Director of Creative Arts K-10 Mike O'Brien said the school's senior students had established a tradition of excellence in performance for many years now.

This included the acclaimed performance of *The Good Doctor*, *Stories From Suburban Road* and *In Their Own Words*.

"Year six students have presented their

own created shows 'Say It Loud' as well," Mr O'Brien said.

"Now drama students from year three to six can extend their drama outside school hours in a new co-curricular program."

Mr O'Brien said it was also a valuable opportunity for students to explore drama and performance in a non-threatening and inclusive activity-based environment.

"Drama is a great way to build skills in communication, prob-
